Oh yeah Joe, and thanks for doing this. I really appreciate your help! Hope you will be getting a couple of days off for the holiday. Rest up and recharge... CG

A month would be great, but it might take longer since this is our first run-through.

Hi, Connie:

I got it, downloaded it, and I'll send it to Mike. I'll also find out who our assigned risk assessor is for the site and pass it on. When do you need comments back?

Thanks,

Joe

Hi, Connie:

Thanks for the update. Yes, Mike is on vacation until January 3, 2019. Why don't you send me the Montana File Transfer link. I'll download it and send it to Mike. Is there additional federal distribution you would like?

Thanks,

Joe

Subject: I tried to send the CFAC HC to Mike Cirian

Hi Joe:

This Health Consultation finally made it through everyone at the state. I sent Mike Cirian an email that said I had sent him the file via our ftp site since it's too large for our email. The address I used was Cirian.Mike@epa.gov.

His email returned the away message "I will be out of the office until September 11th", and gave a phone number. Is this a typo? I'm guessing his family might be out of school this week?

I'm just a little worried about it getting there because the ftp site looks like it's set up for the state government and I haven't sent anything to federal folks yet.

Thanks
